

February 24, 2009

Robert Spillar
Director of Transportation
City of Austin
301 W 2nd Street
Austin, TX 78701

Dear Mr Spillar

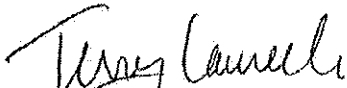

This letter will confirm for the City of Austin, Texas that Parkeon, Inc. if selected is committed to maximizing the use of Minority Business Enterprises ("MBEs") and Women Business Enterprises ("WBEs") (collectively, "WMBEs") as part of the City of Austin pay station parking meter project.

This will involve using qualified WMBEs for assistance in the installation of the new pay station meters and for the removal of the existing single space meters. Additionally, individuals from Texas Industries for the Blind and Handicapped will be contacted to serve as docents for educating and assisting the public during the introductory time period of the new meters.

Parkeon will provide notice to all WMBEs capable of performing the work, identified by a list provided by the City of Austin, of these subcontracting opportunities in sufficient time to allow the businesses to respond with pricing proposals.

Mr Spillar, please contact me directly if you have any questions.

Sincerely,

Terry Laurelli
Controller

Dear Mr Spillar:

This letter will confirm for the City of Austin, Texas that Parkeon, Inc. if selected is committed to using Flextronics, Inc. for the assembly of the City of Austin pay stations.

Flextronics, Inc. is located in Plano, Texas and will do the final assembly for all the City of Austin meters (approximately 500 meters) to be delivered in September, October and November 2009. In addition, Parkeon plans to do full manufacturing at Flextronics for any City of Austin meters that are to be delivered in the February or March 2010 timeframe (approximately 250 meters).

Mr Spillar, please contact me directly if you have any questions.

Sincerely,

Ian Newberg
President
